

Love & Joy

A jubilant blend of Rose, Orange, Geranium, Ylang Ylang and other essential oils. This special blend is created to help bring joy and love into your life. It may help to increase feelings of self-acceptance and relieve depression. Great for Grumpy folks.

Clear Mind Clear Heart

For courage and clarity of consciousness... Opens the mind and heals the heart thus allowing them to work together for your highest good. This beautiful oil contains Blue Lotus oil, highly prized by the ancient Egyptians for its ability to raise consciousness and create Euphoria... it is a blend of 13 different oils. It may help in releasing and cleansing neuro-toxins stored in the hypothalamus and limbic system of your brain. When emotions are stuffed, neuro-toxins can build up there. This formula may also help entrain your head to your heart. Heart/brain coherency has been shown to have a very positive impact on health. This formula was given to me in meditation as an aid in shifting the "biochemistry of fear" to the "biochemistry of Love".

Purification & Protection

This blend contains precious oils of Rose, Melissa, Angelica and much more. It can be used as a room spray to help clear the energetic environment or sprayed around your head and body to clear the auric field. It will help to clear negativity, anger and confusion. It helps create forward movement when you feel stuck. Great for traveling or anytime you have been around large crowds. Creates an energy field around you that helps relieve stress, turmoil and strife. Creates stability and peace.

Remembrance

This blend was created to assist you in remembering ancient knowledge, the truth of your spiritual home and to help create a daily reminder of the Love that we all come from. It can be used to open the third eye. It is an exotic blend that includes both Pink and White Lotus oil. This blend can help to relieve loneliness on a deep level; open you to new horizons and help you gain the highest expression of your Self.

Earth Heart

A rich fragrance created with Jasmine, Angelica, Sandalwood, Cedarwood, Vetiver, Oakmoss and four other essential oils. Carries you to the warm embrace of the Heart of the Mother Earth. Helps to create the feeling of being connected to and nourished by the Earth. It is calming, centering, grounding, and opens the heart. Your energy field is rebalanced by this formula as it helps create heart coherency. It is great to use in meditation.

Before

After

A picture is worth a thousand words. The aura photo on the left is before using Earth Heart and the one on the right is after.

Peace & Tranquility

This blend soothes the Soul, mind and body. It is created with Lavender, Clarysage, Marjoram, Patchouli and other essential oils for enhancement. Choose this blend to help relieve anxiety, stress, insomnia, and muscle aches. It may also assist with PMS symptoms. Great for bedtime baths.

Creative Passion

The finest Rose, Ylang Ylang, exotic Jasmine, Sandalwood and other essential oils make this blend a true aphrodisiac! It's uplifting, anti-depressant and euphoric qualities help to inspire your creativity and passion. Can assist in healing and balancing your male/female energy.

Rosemary's Quintessence

Quintessence... The purest highest state... the purest form of the qualities attributed to Rosemary. It contains Rosemary, Spikenard, Melissa and our own pure blend of Earth Heart along with other essential oils to complete the blend. This formula helps promote clarity and clear confusion. It is uplifting, cleansing and grounding. Rosemary has been said to aid in carrying the light of the human Spirit and to assist us in receiving and understanding messages from a Higher Power. Its qualities are also said to facilitate remembering who we are and our place in the divine plan. It gives energy that helps us in performing the tasks on our Spirit Path and in our everyday lives. Stimulating and awakening. Great for an afternoon slump also!

We also create signature scents for individuals and businesses. Please contact us for more information.

Our mission at Awaken to Grace is to revive the ancient purpose and art of aromatherapy.

The ancient Egyptians first used “perfumery” more than 7000 years ago and perfected the art by 2,500 BC. For them, the main purpose of the oils were spiritual. To “make perfect thy smell” was a method to assist in achieving and reflecting that they had attained total harmony in all their being; physical, mental, emotional and spiritual. They were masters of the art. In one system of perfumery they integrated religion, medicine, chemistry, pharmacology, magic and cosmetics. They believed all were connected.

We are delighted to bring to you excellent quality aromatherapy products developed by Marilyn Edwards in her integrative healing practice over the last 15 years. These blends are powerful agents of healing and transformation, assisting you in achieving health, harmony and awakening to the power of Grace.

Our products are made with the highest quality ingredients. We use organic and wild-crafted essential oils whenever possible, depending on world markets. We buy the highest grade oils. Healing sound and prayer are used in the process that brings these oils to you and they are made with Love.

May you be blessed, healthy and happy.

All of our products contain 100% pure essential oils. In addition, our Body/Home Mists are made with spring water, blessed water and healing Flower Essences. Our Bath Salts are created with soothing sea salt, exotic Himilayan pink salt and dried organic whole milk. We use organic golden jojoba to create our roll-ons for it’s superior quality and shelf life.
